THE CHALLENGE

You have recently been hired from "WHO" as a <u>junior data analyst</u>!

As starting project,
your boss asked you to prepare an
analysis on the pandemic
caused by *SARS-CoV-2*
over countries.

THE GOAL

Create a <u>dashboard</u> that can help the team <u>to monitor how</u> the fight against the disease <u>is proceeding</u> across countries.

HOW

Using <u>Google Looker Studio</u> to create one or more dashboards to help you build a narrative and..

TELL A STORY!

Let's go and see the work I did with this data!
